**Subject:** RE: Order

Mr. Higginbotham-

Could you please let me know who at the USCG you are working with to make this determination?

**Subject:** RE: Order

Mike -

It is my understanding that the Coast Guard has the lead on 009 and 010 and they decided that no further action was required in addition to what has already been done by AM. The draft AO that we have developed to this point was only to address 001 like the Order on Consent (not sure if that is the correct verbage) that EPA was talking about doing.

Thanks.

Mr. Higginbotham-

I wanted to better understand why IDEM was not planning on pursuing an order with Arcelor Mittal regarding outfalls 009 and 010.

Thank you,

---
